

Name _____

Class _____

Date _____

Progression: Difficult

Year 4

Complete The Addition (C)

$2100 + \square = 6200$

$1500 + \square = 9200$

$2600 + \square = 3700$

$5200 + \square = 7100$

$2700 + \square = 4500$

$1800 + \square = 2300$

$6100 + \square = 9500$

$2400 + \square = 8200$

$3500 + \square = 4300$

$4100 + \square = 6900$

$\square + 2900 = 8500$

$\square + 7600 = 9100$

$\square + 800 = 1500$

$\square + 6100 = 7700$

$\square + 7700 = 9300$

$\square + 2500 = 4200$

$\square + 2800 = 5500$

$\square + 2300 = 9800$

$\square + 2400 = 6700$

$\square + 1700 = 2500$
