## Complete The Addition (B)

$2100 + \square = 6000$

$1500 + \square = 9000$

$2600 + \square = 3000$

$5200 + \square = 7000$

$2700 + \square = 4000$

$1800 + \square = 2000$

$6100 + \square = 9000$

$2400 + \square = 8000$

$3500 + \square = 4000$

$4100 + \square = 6000$

$\square + 2900 = 8000$

$\square + 7600 = 9000$

$\square + 800 = 1000$

$\square + 6100 = 7000$

$\square + 7700 = 9000$

$\square + 2500 = 4000$

$\square + 3800 = 5000$

$\square + 2300 = 9000$

$\square + 2400 = 6000$

$\square + 1700 = 2000$

How confidently can you  
work out number bonds  
to multiples of 1000?

Not confident

Fairly confident

Very confident
